

## IT'S A GROUNDBREAKING DAY IN THE NEIGHBORHOOD

Royal Caribbean International continues its tradition of cruise ship innovation with *Oasis of the Seas*, truly an architectural and nautical marvel with spectacular onboard elements and features never before seen on a cruise ship. Through its unique neighborhood concept, seven areas of the ship will provide vacationers with the opportunity to seek out relevant experiences based on their personal style, preference or mood. The following highlights five of the seven neighborhoods onboard *Oasis of the Seas*:

### **CENTRAL PARK**

Royal Caribbean will bring the best of the land to sea with Central Park, a revolutionary design in which the center of the ship opens to the sky and features lush, tropical grounds spanning more than the length of a football field. An exquisite public gathering place featuring serene pathways, seasonal flower gardens and canopy trees, Central Park will provide cruisers with more choices in a unique outdoor space. One of the ship's most groundbreaking spaces, this new concept was the first of seven neighborhoods to be unveiled on *Oasis of the Seas*.

- Sure to be popular with guests, Dazzles is a spectacular venue - spanning two decks - with an expansive floor-to-ceiling window offering breathtaking views of the Boardwalk below. The new dance lounge will offer a variety of musical experiences ranging from 1940's big band to disco to ballroom evenings. During the day, Dazzles will be open for guests to enjoy the view of the bustling activity on the Boardwalk over a drink or to learn a new dance move with a professional dance instructor.

Additional features of Central Park:

  - Parkside Gallery - art gallery
  - Picture This - portrait studio
  - Specialty Retail

## **BOARDWALK**

This breathtaking space was inspired by both the seaside piers that dot the coast of England and the nostalgic boardwalks of yesteryear such as Coney Island. Boardwalk will be an area for the entire family to enjoy together, whether young or just young at heart. The elements of the Boardwalk will be a dynamic way to engage families in classic fun with a colorful original carousel as well as eateries, retail outlets and carnival games. Signature elements of the Boardwalk include:

- A remarkable outdoor venue at the stern of *Oasis of the Seas* with a backdrop of the ocean across the horizon, AquaTheater will be an amphitheater-style space celebrating water with a full-spectrum of day and night options including professional diving and theatrical performances. The first of its kind and the most technologically-advanced area of the ship, AquaTheater will be a complete sensory experience that plays on the element of surprise, as the latest technology and design features amaze audience members.
- The centerpiece of Boardwalk will be a one-of-a-kind carousel - the first-ever at sea. Hand-crafted from poplar wood especially for Royal Caribbean, the full-sized, traditional carousel will take six to eight months to complete. It will feature 21 figures suspended from stainless steel poles showcasing a time-honored menagerie of animals such as zebras, giraffes and lions, alongside a variety of hand-painted horses including a princess horse and a crowned frog prince. The lead horse, customarily the fanciest horse of the carousel, will be adorned with Royal Caribbean logos, while a single chariot will serve as a stationary seat for two. The frame of the carousel will have a red and golden yellow facade, turn-of-the-century artwork scenery panels, and LED lights that twinkle during the day and night.
- A thrilling new feature, a zip line will be suspended nine decks above Boardwalk, giving adventurers a birds-eye view of the action below, as the rider speeds diagonally across the open air atrium – a distance of more than 82 feet (25 meters).
- Six AquaTheater Suites, 221 Boardwalk view balcony staterooms, and eight Boardwalk view window staterooms.

Additional features of Boardwalk:

- Five shops including:
  - Madame Zamara's - Psychic and Tattoo Parlor

## **ROYAL PROMENADE**

- A natural evolution of the signature Royal Promenade featured on the cruise lines Voyager- and Freedom-class ships, the new design found on *Oasis of the Seas* will allow guests to have a physical connection with the neighborhood above – Central Park – as natural light cascades down from the sky. Giant glass-arched skylights, the Crystal Canopies, form a sculptured roof that will look up into Central Park and the sky beyond.
- The unique Rising Tide bar – the first moving bar at sea – is an engineering feat that will span three decks and allow cruisers to enjoy a cocktail as they slowly descend from Central Park and arrive into the Royal Promenade.
- Suspended above the Globe and Atlas Pub, is an unfurling bridge on hinged hydraulics which will create a spectacular, surprise element for guests. Incorporated into the pub’s facade, a giant copper globe “cracks open” as part of its unique construction and extends over the Royal Promenade as a bridge platform. A focal point of the Royal Promenade, the bridge will be approximately 10 feet above and adjacent to the entertainment area for performances.
- Located towards the aft of the Royal Promenade, a mezzanine level will allow for sweeping views of the promenade and features the cruise line’s Schooner Bar, Adventures with Royal Caribbean International – the line’s future cruise sales desk and the line’s loyalty member club, the Diamond Club.
- Another first for the cruise line, the Royal Promenade will serve as the entry point for all guests embarking on *Oasis of the Seas*, rather than the traditional lower decks. A vast tree sculpture by international artist Larry Kirkland serves as an impressive welcoming spot.

### **POOL AND SPORTS ZONE**

Stretching the length of the ship, the Pool and Sports Zone is an ample playground for guests of all ages, featuring private cabanas, four unique types of pools, and two FlowRider surf simulators – each larger than the single FlowRider found on the line’s Freedom-class ships

- The first Beach Pool at sea will have a sloped entry where guests will be able to wade into the water or relax in colorful beach chairs under an umbrella as the water rolls gently beneath. Two whirlpools will flank either side of the “beach” for guests who prefer warmer waters.
- Located on the opposite side of the ship from the Beach Pool and separated by Central Park six decks below, is the Main Pool with two side-by-side whirlpools, ideal for rest and relaxation in the sun. Overlooking both pools will be private cabanas, complete with a dedicated attendant.
- Families looking for fun in the sun will easily spot Royal Caribbean’s signature H2O Zone, marked by a giant octopus with its slides and water-spraying tentacles and surrounded by fellow water-spouting ocean creatures. Separate wading and current pools, as well as a dedicated infant and toddler pool, will be set in the interactive aquatic playground and surrounded by adult and child-sized lounge chairs.
- The more competitive set will find haven in the Sports Pool, where afternoon water team sports will include basketball, badminton and water polo, while morning hours will be dedicated to lap swimming.
- Boasting a redefined layout, the adults-only Solarium guests will have the sensation of floating on air from the two-deck high, glass-paneled enclave designed with seating on various “islands” surrounded by water. The open-air Solarium will offer a tranquil swimming pool, two serene whirlpools, and four cantilevered whirlpools suspended 136 feet above the ocean. The mezzanine level of the adult-dedicated area will overlook the pool deck below, offering additional chaise lounges and seating.
- The new Solarium Bistro will offer casual fare from the Vitality spa menu during the day, and in the evenings, transform into a romantic and intimate setting for specialty dining and dancing under the stars. It is also the perfect venue for a unique late night dance club experience – Club 20 – made popular on the line’s Freedom-class ships.
- The Sports Deck in the Pool and Sports Zone also will boast new innovations, including the first zip-line at sea, and two of the popular FlowRider surf simulators, flanking either side of the elevated back deck.
